Subject: Microsoft Anti-trust Settlement

To Whom It May Concern:

I am deeply disappointed that the current administration is caving in on Microsoft. Fair competition is essential for capitalism to work and Microsoft has done everything in its power to stifle competition. Because of their monopoly they get by with releasing mediocre products. Further, their activities are hurting the growth of innovative technology and your weak-kneed position will hurt the economy in the long run. Please take a longer range point of view and stimulate competition by forcing Microsoft to cease their efforts to take over the internet and virtually all computer software.
